

2017-2018 Grant Winners

Campus	Grades	Recipient	Amount Awarded	Grant Title	Description
Magee Elementary	4th & 5th	Lynn LaStrapes	\$1,000.00	Lightbox: Learning in a Whole New Light	Lightbox allows students and teachers unlimited access both on and off campus. Lightbox is an interactive eBook that features unique learning experiences through videos, audio, weblinks, activities, and quizzes, providing student-centered learning for the 4th and 5th graders at Magee.
Wood River Elementary	Pk-3rd	Lynn LaStrapes	\$1,040.00	Let the Light Shine with Lightbox!	Lightbox allows students and teachers unlimited access both on and off campus. Lightbox is an interactive eBook that features unique learning experiences through videos, audio, weblinks, activities, and quizzes, providing student-centered learning for PK- 3rd graders at Wood River.
Magee Elementary	5th	Jessica Marie Almaraz	\$1,576.99	Reading Ignited - Building A Brilliant Reading Community & Beyond	Reading is ignited by a classroom library of books geared toward the development of comprehension, fluency, growth of vocabulary skills, and reading confidence.
District	1st-7th	Elizabeth Blair, Kristi Nix	\$4,390.00	Tablets for Text	Students identified with dyslexia are able to practice the skills they are learning in their intervention classes with these tablets. Putting technology into the hands of each of these students is important to their individual learning needs.
East Elementary	Pk-3rd	Lynn LaStrapes	\$1,360.00	Light Up with Lightbox!	Lightbox allows students and teachers unlimited access both on and off campus. Lightbox is an interactive eBook that features unique learning experiences through videos, audio, weblinks, activities, and quizzes, providing student-centered learning for PK- 3rd graders at East.
CHS	9th-12th	Dale Lamb	\$6,325.00	Ready, Set, Wow!	Advanced cameras, software and hardware are necessary for improved video quality and production. The skills students learn in Audio Video Productions provides them with opportunities in the areas of career and technology.
East Elementary	Special Education & 1st RTI	Shelly Whitman	\$1,233.20	Touch Math	With Touch Math, remedial learners and special education students will learn by seeing, saying, touching and hearing. This multisensory approach gives students confidence to solve math problems and master fundamental skills.
CHS / CMS	6th - 12th	Nic Goodman	\$1,495.00	Steel Pan for Calallen Percussion	The Steel Pan (Steel Drum) allows percussion students to study, perform music, and gain a deeper understanding of the Trinidadian culture, on authentic instruments.

Campus	Grades	Recipient	Amount Awarded	Grant Title	Description
Magee Elementary	5th	Katherine Cassidy	\$4,433.22	Book Clubs & Text Sets - Hooking our Readers Through Mobile Literacy	5th grade teachers will rotate resources each quarter, providing an opportunity for each student to access all the titles in this highly engaging, culturally diverse, library of text sets, book clubs, and read alouds.
Wood River and East Elementary	3rd	Patty Fox	\$661.89	Targeted Problem Solving & Spiraling Review	The math lab focuses on small group, targeted instruction for students needing assistance with essential knowledge and skills. These labs focus on deeper understanding of combined skill, problem solving, and math vocabulary.
CMS	6th - 8th	April Taylor	\$2,615.34	Makers in the Making - 3D Printer	An additional 3D printer allows more students the opportunity to print their designs. Students choose to take more risks in their designs, learning critical thinking skills, when they know they will be able to see their projects finished.
CHS	11th & 12th	Lara Burkhart	\$2,498.95	Instant Feedback...ask Syri! Need Direction....Navigation!	This Navigation system is used to test students on their ability to create and calculate circuits and apply Ohms law across the components of the circuit. They were able to use a virtual circuit construction kit to build the circuit and check their calculations.
Wood River Elementary	2nd	Brenda Wright	\$4,099.93	Chromebooks	Chromebooks allow the teacher the resources necessary to accommodate different types of learners, as well as different levels of learning.
CMS	6th-8th	April Taylor	\$2,428.00	CMS Destination Imagination	Through the Destination Imagination programs, students use creative ways to turn their ideas into reality while learning invaluable skills through creative thinking, team building, problem solving, risk taking and project management.
Wood River Elementary	K-3rd	Michelle Kautz	\$2,451.41	Read Today, Star Tomorrow	In order for students to become competent readers and writers, they need to have access to a variety of reading materials. When each student can find books they enjoy reading, it develops their interest in literature. A classroom library helps ensure all students have that opportunity.
Wood River Elementary	K-3rd	Michelle Kautz	\$4,658.07	Reading is Fun	Hands on manipulatives make reading fun! These items provide students with the opportunity to manipulate sounds, build words, enhance vocabulary skills and develop reading comprehension, in a fun learning environment.
East Elementary	1st	Marisa Young	\$8,977.67	Chrome into the 21st Century	Chromebooks allow the teacher the resources necessary to accommodate different types of learners, as well as different levels of learning.
Magee Elementary	5th	Kasie Meyer	\$2,744.67	Ultimate Interactive Classroom	White board tables give students the opportunity to learn in a unique and exciting way. These tables are erasable and can transform into standing tables permitting different learning environments.
Total Awarded:			\$53,989.34
