ANNUAL REPORT

MISSION

The Calallen Education Foundation (CEF) supports student programs, projects and initiatives that do not receive tax-based funding. The CEF provides grants and financial backing to innovative and inspiring educators striving for excellence in instruction and superior student learning.

calalleneducationfoundation.org

Letter from the President, Amber Bozeman

They say time flies when you're having fun, and the last year with Calallen Education Foundation, has been just that!! We have seen much growth and creativity in grant applications from our educators, than ever before! We also held our very first benefit concert this past winter, at The Post in Orange Grove, bringing a fresh and new perspective to the Foundation. I am beyond excited to see what the future holds with CEF as we continue to support student programs, projects and initiatives! I would express a huge Thank You to our donors and sponsors, without their tremendous generosity, none of this would be possible. Good luck to all the students and staff of Calallen ISD as we begin a new school year. Go Wildcats!

Amber Bozeman

Amber Bozeman

President, Calallen Education Foundation

11th Annual Casino Night

February 18, 2023 was the 11th annual casino night held at The Al Amin Temple in Corpus Christi. This event was attended by annual investors and members of the community. The silent and live auction were a hit with the highest grossing auction item being a "trip to school in a firetruck" donated by the Corpus Christi Fire Department! A special thank you to Randy Paige for helping to secure this item.

State of the District

On October 19, 2023 CEF hosted their annual State of the District luncheon featuring speeches from Calallen ISD Superintendent Emily Lorenz and Chef Natalie Trevino, owner and executive chef of The Roughian. Natalie has worked as a private chef, culinary instructor and menu developer since graduating The Global Culinary Program at The Art Institute in Austin, Texas with her bachelors' degree. Natalie is a 2005 Graduate of Calallen High School and was born and raised a South Texas Sweetheart with a deep love for the saltwater, wide open spaces and her beloved hometown of Corpus Christi. The luncheon was a great success with community leaders, staff, and annual investors all coming out to support Calallen ISD and the Foundation.

Keynote Speaker

Chef Natalie Trevino

2024 Winter Concert Fundraiser

Presented by Conni & Jay Wise and Liles White PLLC

This past February the Foundation made a change from Casino Night to a winter concert performed by Texas country artist, Mike and the Moonpies hosted at the Post Orange Grove. Because of the support of the sponsors, all funds raised through ticket sales, the live and silent auction went to fulfilling teacher grants.

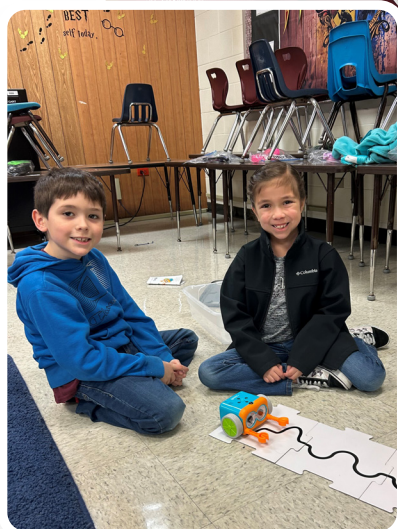

Helping Here.®

Programs led by Chelsea Schulze

Every month volunteers come together to oversee and judge grants put forward to the Foundation. CEF is grateful for their dedication to the community and Calallen ISD

Standard Grants

For 2023 and 2024 school years CEF hosts both a fall and spring standard grant cycle. The standard grant is for classroom enrichment and requires a written application. Dollar limits are \$2,500 for an individual applicant, \$6,000 for two or more classroom level teachers on the same application, and \$10,000 for a district or campus wide application. Grants are graded on creativity, lesson plan alignment with TEKS, sustainability and budget. This past year, video presentations were permitted to accompany the written grants which allowed teachers to walk the judges through their specific request.

Standard Grants 2022/2023

- Fall Grant Patrol – 12 grants awarded totaling \$64,597.06
- Spring Grant Patrol – 8 grants awarded totaling \$45,535.51

Standard Grants 2023/2024

- Fall Grant Patrol- 9 grants awarded totaling \$41,866.94
- Spring Grant Patrol- 14 grants awarded totaling \$67,323.52

2023-24 Standard Grant Recipients

Total Awarded: \$109,190.46

Charolette Sears | Magee Intermediate

\$5,029.09 I can learn differently using iPads
iPads encourage creativity and spark learning in students. Engaging students with what they are doing by providing a unique way to discover information could help them learn at a much faster rate. For children who lack motor skills, manipulating between a keyboard, mouse, and screen can be overwhelming.

Kristen Ross | Magee Intermediate

\$1,314.25 Experimental Project-Based Reading Circles
Students will engage in reading circles and project-based learning through reading short and long texts of various genres. Students will each receive a fiction-based magazine and a STEM-based magazine monthly to explore in small group learning. Students will also select and read their choice of the 2023 Bluebonnet books. Small groups of students will read a book together, complete research, and construct an interactive project display that will be showcased in the library for the entire student body.

Jessica Perez | Calallen Middle School

\$2,199.00 Nspiring Reformed
Using technology in the classroom enables immediate differentiation for teachers, allowing them to provide equitable learning opportunities for students with diverse socioeconomic, cultural, and educational backgrounds. The TI-Nspire CX Navigator System is a completely wireless classroom network communication system that is compatible with the TI-Nspire CX II handhelds.

Erica Eicher-Hernandez | Magee Intermediate

\$5,519.18 The Super Mario Effect
Students must invest in their learning. But how do we get students to do that? It's easy when we use literacy games to motivate and dare I say trick students into learning. Giving students something to be excited about when they walk in the door. A sense of pride and the confidence to do their best regardless of the obstacles ahead. The choice to learn at their own pace in their own way.

Kayla Otahal | West Intermediate

\$4,055.18 STEM-ing into Technology
A Boxlight will provide my students all of these opportunities through interactive technology collaboration, participation, engagement, fun through a direct experience. If students feel like they are a part of making decisions about their education, their success and achievements will increase.

Casandra Lopez | Calallen Middle School

\$4,539.93 Inspire with TI-Nspire
The TI-Nspire CX II graphing calculator provides faster performance, added interactive visuals and easier-to-read graphics. It has algebraic capabilities that assist in solving equations, graphing linear functions, quadratic functions, and exponential functions.

Nic Goodman | Calallen Middle School & High School

\$6,961.00 Cello Stell Pans
A main unit of study at both campuses has been the steel pan (steel drum) music from the island of Trinidad. The musical ensemble that provides the vehicle for this study is known as the Calallen Steel Band. Both Calallen Middle School and Calallen High School hold a steel band on campus, which puts Calallen in the elite company of leading percussion and band programs in the state of Texas and across the country.

Standard Grant Winners Continued

\$9,168.96	Jose Hernandez District Brick by Brick: Igniting STEM Education with the Mobile Lego Stem lab The mobile lego stem lab promotes collaborative problem-solving, critical thinking, and creativity, all while aligning with educational standards. Overall, the mobile lego stem lab enriches learning by making stem subjects engaging, accessible, and applicable in real-world context.
\$3,079.86	Jessica M. Almaraz Magee Intermediate Launching to Success: Cross Curricular Scholars This is a plan that places the power of Scholastic's periodical such as Story Works, SuperStem, and Scholastic News in the hands of our students. Each periodical will immerse our students in the most exciting reading experiences and unforgettable stories in all genres. Each month will bring excitement along with new opportunities to encounter real world topics resulting in real student engagement.
\$9,984.00	Rebecca Sendejo District Laser Engraver Laser cutters can transform any idea into reality, making them like magic wands. They can cut through almost any material, even con-verting trash into treasures. Picture this: old election signs that would have been discarded into our landfill, now serving as a source of creative inspiration for students! Laser cutters bring endless possibilities to the classroom, making each lesson an exciting and thought provoking journey.
\$3,000.00	Wimberley Rose Magee Intermediate Drum Circles and More Instruments that are funded by this grant will contribute to the Fine Arts Program at both Intermediate Campuses, Magee Intermediate and West Elementary Intermediate. All students in grades 3rd, 4th and 5th will have access to these instruments, which is approximately 883 students. Students will learn to play a variety instruments using creative expression, including accurate intonation, rhythm, independently and in groups.
\$4,482.20	Charlotte Sears Magee Intermediate Creation Station The object of this STEAM grant is to create real-world applications for classroom concepts while learning to practice empathy and respect when working in a collaborative setting. Hands-on learning takes on concepts taught during a lesson and moves them from an abstract concept to a real-world understanding.
\$4,298.74	Kaitlyn Kolar Magee Intermediate Classroom Engagement with Interactive Technology An interactive whiteboard in the classroom will provide students with the technology they know and understand. It enhances collaboration and will invite interaction with the lesson. Providing a Boxlight interactive flat panel in the classroom will promote student engagement, increase student motivation, provide authentic learning experiences, and increase student achievement.
\$2,344.64	Lindsey Marek Magee Intermediate STEM meets reading! Adding a full STEM library and a variety of STEM bins will allow students for years to come to be able to enjoy soft starts in my classroom. Through the use of a STEM library and STEM bins, I will be able to help my students get their days started with something fun, engaging, and educational. This will also allow all students to get acclimated before getting the rest of our day started. This will allow a hands-on approach to learning and creativity.

Clinic

Frazier
FAMILY FOUNDATION

Standard Grant Winners Continued

\$1,905.10	Erica Eicher-Hernandez Magee Intermediate Print-Rich Environment: Empowering Tomorrow's innovators The majority of students respond very well to visuals. Utilizing specialized printers to present our curriculum is a great way to create visuals that will aid in educating all students. Challenging concepts and ideas can easily be explained through visuals. Displaying academic information on the walls for my students gives them repeated exposure to concepts that can be challenging.
\$10,000.00	Stephanie Hamiter Magee Intermediate Wisdom Wellspring: quenching curiosity with nonfiction To motivate students to explore personal curiosities and discover a love of learning while improving reading and research skills through the nonfiction section of the school library. This grant would immediately positively impact all 425 students on the campus. In addition, all teachers could benefit in the long term because the nonfiction collection is developed with curriculum in mind.
\$4,807.87	Marah Kirkland Wood River Elementary Sensory Solutions Students will be able to utilize the sensory room multiple days a week, if not daily. Giving our students the ability to access the sensory room will help increase academic performance within the classroom while decreasing behaviors throughout their school day.
\$5,324.90	Adriana Martinez Wood River Elementary Socialization & Sensory Breaks for Sensational Brains Sensory Breaks for Sensational Brains is a project designed to enhance or upgrade our current BSIP (Behavior Support inclusion Program) classroom which currently services the entire student population at Wood River Elementary, a total of 450 students. Our main objective is to provide a safe, secure, challenging, and inspiring learning environment accessible to all students to assist them in regulating their emotions and behaviors in a diverse way using critical thinking skills.
\$4,000.00	Lori Villa West Elementary Filling in the Blanks This initiative is designed to enrich learning because it will allow all students on the West Elementary campus to be able to complete reading book series they have been enjoying, without having to miss installments due to missing books.
\$1,420	PE Department Calallen High School Laser Time Wireless laser training sprint, physical fitness test, sports timer will allow for extremely accurate times. Students that not only participate in athletic program, but also, courses such as physicals, ROTC, Fitness and Wellness, Fitness and outdoor training, weight training and exercise, and other health and Physical Education electives. A laser timer would benefit over 2,000 Calallen High School and Middle School Students within it's first year of use.
\$6,076.17	Monica Cash Calallen High School Advanced Apes Advanced Placement Environmental Science is a college-level environmental science course that is taught as a traditional science course, incorporating laboratory activities, virtual activities, short-term projects, long-term studies, field investigations, and the use of technology for gathering data. Experiences in the laboratory and field and through virtual internal labs will provide students with opportunities to relate classroom concepts to real-world applications of environmental science.

Brianna Melvin | Calallen High School

Get Nspired

\$4,893.03

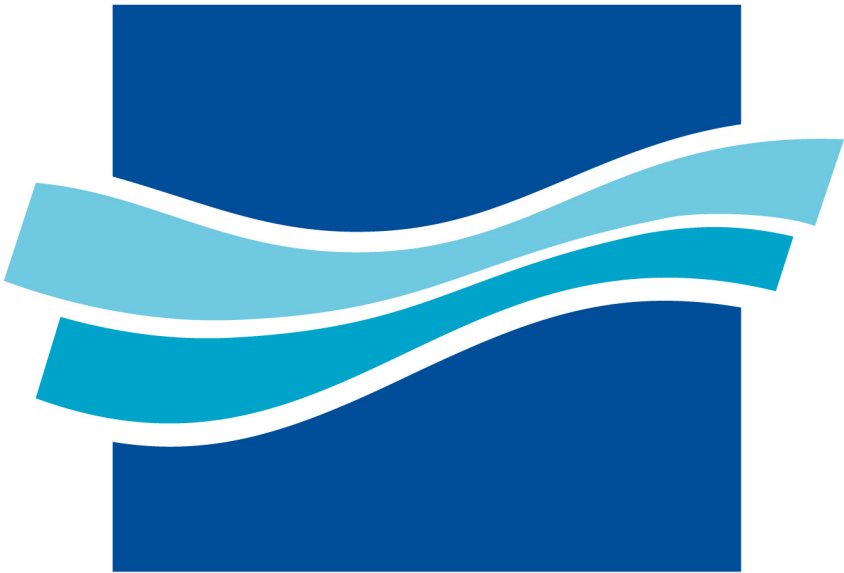

Utilizing technology is essential for an effective classroom, enhancing both engagement and interaction while maintaining academic rigor. The integration of advanced tools like the TI-Nspire CX II graphing calculator is a significant step in this direction at CHS. Our commitment to technology-forward classrooms in the mathematics department is evident.

Teresa Lentz | Calallen High School

The Pursuit of Excellence: Mindset Matters

\$4,786.73

An interactive Boxlight is essential in any classroom! It opens the doors of possibilities as it engages students in kinesthetic learning with the touch of a finger. The most important concept of a Boxlight is that students are involved in their learning. Ultimately, Boxlights engage and motivate students as they instantly become a part of the lesson that allows them to stand up, get moving, manipulate the screen, and more importantly LEARN.

Advancing Possible

Mini-Grants

The CEF Mini-Grant provides a monthly grant application opportunity from September through May. This Grant requires a request form and a 5–7-minute presentation in front of a panel of judges. Mini-grant requests have a \$500 limit. CEF awarded 25 mini-grants during the 22/23 school year and 22 mini-grants for the 23/24 school year. These grants immediately impact the classroom in a fun transformative way. Calallen teachers have come up with amazing classroom enhancement ideas over the years and CEF is honored to be able to support them.

Mini Grants 2022-2024

- 2022/2023- 25 grants awarded totaling \$10,013.49
- 2023/2024- 22 grants awarded totaling \$ 9,989.30

Mini-Grant Recipients

Total Awarded: \$8,512.13

Jessica Perez | Calallen Middle School

\$492.28

Fold and Flip for Math

Students will use higher-level thinking skills to create foldable, interactive notes from bundles of assorted colored sheets purchased with grant funds to review for the 8th grade Mathematics STAAR test. These interactive notes will help students practice the concepts that have been taught

Sharon Story | Calallen Middle School

\$499.45

Fold and Flip for Math

Students will use higher-level thinking skills to create foldable, interactive notes from bundles of assorted colored sheets purchased with grant funds to review for the 8th grade Mathematics STAAR test. These interactive notes will help students practice the concepts that have been taught

Lindsey Marek | Magee Intermediate

\$497.57

Sensory Needs Met!

Students tend to fidget and move when learning. Allowing students to have items to help them harness and direct this action allows them to become more attentive in class. The grant will supply fidget items and desk accessories to allow for this movement.

Sarah Visos | Calallen Middle School

\$379.99

Rotary Cutter

This tool allows us to engage students with more hands on and kinesthetic activities, which require a lot of printing and cutting of paper. With limited resources, many teachers simply do not have the tools or time to prepare for these types of lessons. With the rotary cutter those options are now more readily available to the teachers.

Mini-Grant Winners Continued

Kayla Otahal | West Intermediate

Scientific Library

\$494.26

The funds will be used to create a science classroom library. With some of these books we are able to complete STEM challenges that tie into our unit of study. Students love when we read books together. It allow them to become respectful audience members, actively listen, and then participate in student led discussions.

Maggie Fowler | District

QPR Save a Life

\$500.00

Funds will be used to for training material from the QPR Institute. Specifically, they will be used for a certificate, digital review booklet, digital reference card, interactive role play, and readings on evidence based suicide prevention for each person who is trained.

Sara Nelson | Calallen High School

Suicide Prevention at CHS

\$494.25

Funds will be used to purchase consumable items for all CHS students to access such as cards with 988, bracelets with 988, mental health pamphlets, and anxiety/ sensory items to decrease periods of anxiety. Bringing mental health and suicide prevention to our students is ongoing and we will use the items from this grant throughout the school year.

Samantha Luarca | Calallen Middle School

Energy

\$374.79

Funds will be use to purchase lab equipment to help our students experiment with properties of elements, electricity and energy conversion.

Sheila Ochoa | District

Success Stories

\$426.77

These funds will be used to purchase decodable books that are written for older “beginning” readers at Magee Intermediate and West Elementary Intermediate. These books contain words that follow regular patterns, intentionally sequencing the introduction of new skills.

Mini-Grant Winners Continued

\$239.00	Ashley Youngblood Wood River Elementary Classroom learning rug The funds will be used to purchase a new class room rug for daily student led conversations on our classroom rug to encourage the development of language skills, check for comprehension, and to help grow their ability to think critically about a variety of topics.
\$479.92	Kalina Stokes Wood River Elementary Revitalizing Fine Arts for our Youngest Learners These funds will be used to sustain and revitalize the fine arts program at Wood River Elementary Elementary with much needed supplies and equipment. Preschool, kindergarten, first grade, and second grade students are undergoing the most important developmental years of their lives.
\$493.98	Nicole Schrank West Intermediate West Elementary's Eyes on the Skies! The funds will be used to set up a visual weather station at West Elementary Intermediate that will be accessible to the entire campus. Kids are always curious about the weather, and especially during the hottest months or winter, when weather is constantly changing, they would be able to see these changes happening in real time.
\$440.70	Mariel Kilbourn Wood River Elementary Adventure in Technology with Botley Botley will help us achieve goals for TEKS in Technology Applications for Students in K-2. There are 6 strands in technology application and the Botley robots will facilitate student communication and collaboration in the classroom to reinforce and promote learning. Through the study of technology operations and concepts, students are able to take technology related terms, concepts, and data input strategies they are learning through learning.com and apply them directly to working with Botley.
\$495.64	Sabrina Jaurez, Lorraine Wolfe, Ann Landreth, Lauren Combs Wood River Elementary Classroom Transformations: Transforming Our Teaching to Increase Student Engagement Teachers all around the world are trying to find new and exciting ways to engage students in their content areas. When classroom get transformed, students get excited to learn and remember these activities longer than others.
\$495.64	Marisa Young, Karen Sims, Katy Bradshaw, Anna Rodriguez Wood River Elementary Classroom Transformations: Transforming Our Teaching to Increase Student Engagement Teachers all around the world are trying to find new and exciting ways to engage students in their content areas. When classroom get transformed, students get excited to learn and remember these activities longer than others.
\$401.59	Rhonda Pruitt Magee & West Intermediate Total Solar Eclipse of 2024 On April 8, Texas will experience a Total Solar Eclipse. These students and most of their parents have never experienced a total eclipse because it is extremely rare to experience it here in Texas. By having solar eclipse glasses and solar models, it will allow students to have a hands-on experience for their science classes and TEKS learning.

Mini-Grant Winners Continued

\$492.03	Casandra Lopez Calallen High School Algebra 1: EOC Survival Guide Students will use higher order thinking skills to review and prepare for the Algebra I EOC Test in April, by creating foldables/interactive notes. Providing students with a blank book will allow our students to have all their review material in one place and will provide the ultimate study guide for students to prepare themselves for their EOC Exam.
\$496.44	Brianna Melvin Calallen High School Algebra 1: EOC Survival Guide Students will use higher order thinking skills to review and prepare for the Algebra I EOC Test in April, by creating foldables/interactive notes. Providing students with a blank book will allow our students to have all their review material in one place and will provide the ultimate study guide for students to prepare themselves for their EOC Exam.
\$327.10	Amelia Booth East Elementary Social Emotional Learning Funds will be used to purchase books, task cards, and games to support Social Emotional Learning among our students by providing them with different mediums to learn self-regulation.
\$467.90	Lindsey Marek Magee Intermediate A little spot of SEL Funds will be used to purchase the Social-Emotional Learning Educator's Starter Kit and the add-on bundle, along with the Little Spot of Learning box set and mini "learning" plush of the "Little Spot" series by Diane Alber. Funds will provide over 40 books as well as visual plush aids for the teacher to utilize with students for social-emotional learning embedded into the classroom.

Nueces Electric Cooperative

Your Touchstone Energy® Cooperative 

Mini-Grant Winners Continued

\$500	Lana Adami Calallen High School Mad About Minks This grant will allow for 90 students to dissect minks instead of frogs. Minks mimics human anatomy closer than frogs and are larger which will allow students to have more hands-on learning.
\$472.68	Nicole Schrank & Larissa Quintanilla West Intermediate Cross-Curricular Magic! Reading is the gateway into opening the imagination and minds of children and adults alike. Harry Potter is a classic novel, and it was the gateway into my love of reading! There are SO many options to just expand it beyond reading it though. Activities can easily be added in to draw relationships from ALL subjects! Funds will be used to purchase a class set (26) of Harry Potter and the Sorcerer's Stone for Mrs. Schrank's class and a class set for Mrs. Quintanilla's class for a cross-curricular Harry Potter unit to take place after the STAAR test with all of 4th grade.
\$382.02	Kayla Otahal West Intermediate Turning Muggles into Wizards- A Grade Level Transformation The grant will be used to transform 4th grade into a wizarding world. We want our students to be engaged and excited to read a "big" novel! Our hallway will have Hogwarts Letters, Diagon Alley, Platform 9 $\frac{3}{4}$, The Great Hall, Hogwarts House Banners, and an Owlery.
\$472.68	Andrea Driver & Jonell Jechorek Magee Intermediate Cross-Curricular Magic! Harry Potter is a classic novel, and it was the gateway into my love of reading! There are SO many options to just expand it beyond reading it though. Activities can easily be added in to draw relationships from ALL subjects! Funds will be used to purchase a class set of Harry Potter and the Sorcerer's Stone for Mrs. Driver's class and a class set for Mrs. Jeckorek's class for a cross-curricular Harry Potter unit to take place after the STAAR test with all of 4th grade.
\$499.35	Wimberley Rose Magee & West Intermediate 5th grade Wildcats Rock my HeART! The Fine Arts teacher will utilize these materials in to create a 5th grade Legacy Art Installment for 5th grade students to leave their mark or "paw print" at Magee & West Elementary. Each 5th grade student will paint a rock to leave at West Elementary or Magee in the front of the school's flower bed.
\$488.09	Joseph Eason Calallen High School Acquisition of Updated Electronics for Competitive Readiness Funds will be used for the purchase of updated motors and spare batteries/chargers for use in the Robotics club competitions. There is a final competition for the Buc Day's Festival on May 4, and the updated motors and spare batteries will help the teams be more competitive during the last tournament.
\$500	Amber Martinez Calallen High School Mad About Minks This grant will allow for 90 students to dissect minks instead of frogs. Minks mimics human anatomy closer than frogs and are larger which will allow students to have more hands-on learning.

Mini-Grant Winners Continued

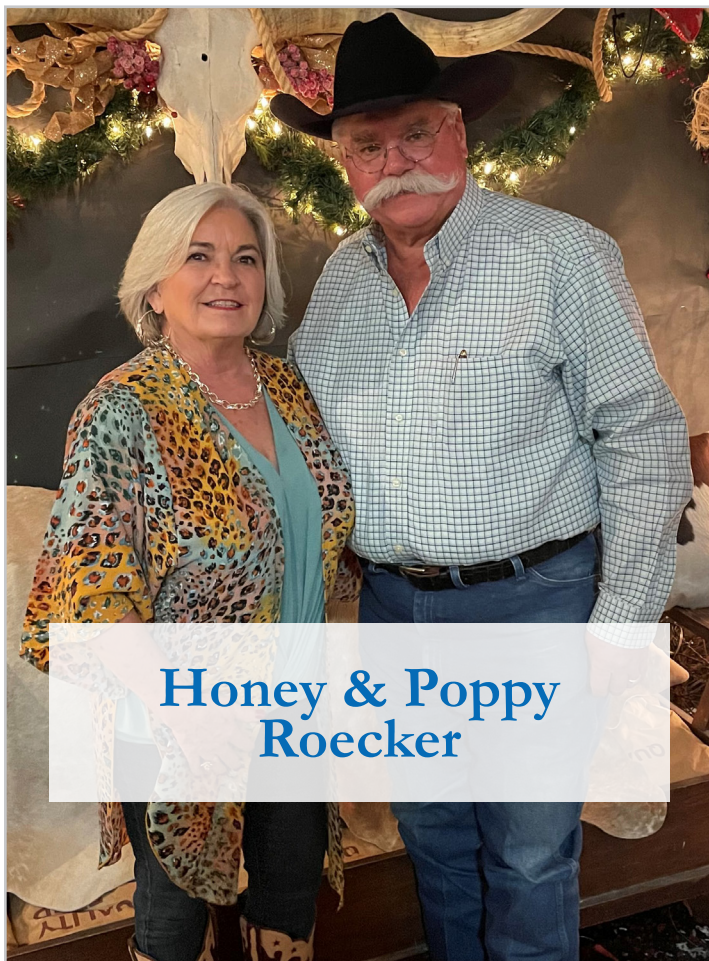

\$489.80	Gwen Villareal East Elementary Flexible Seating 2024 Classroom flexible seating allows my students the options to rock, bounce, wobble, stand or lean. Research has shown flexible seating to have many benefits, such benefits include feeling empowered, build core strength, ability to choose, and help students with ASD, ADHD, and/or ADD.
\$481.84	Erica Eicher-Hernandez Magee Intermediate Deep in the Heart of Texas! Many topics naturally span multiple subject areas, making teaching easier for educators and learning more engaging for students. Social studies education plays a vital role in enhancing literacy outcomes by fostering the development of comprehensive knowledge and vocabulary across various domains. To summarize, the need for nonfiction books in both reading and social studies education lies in their capacity to stimulate profound learning, encourage critical thinking, and foster comprehension.
\$411.95	Jennifer Van Metre Magee Intermediate Board Games Fun! Using these games will help students review and practice many of the Reading/Language art TEKS pertaining to Nouns (Singular, plural, common and proper), Conjunctions, Reading comprehension, Vocabulary, Grammar while still interacting with classmates.
\$440.92	Misti Coleman West Intermediate Building Thinking Classrooms with the CISD Math Framework These funds will be used to cover every 4th Grade Math TEK. One piece of the CISD Math Framework is having students go through productive math struggle. I will implement this piece with the current teaching TEKS by having students work in random groups at these boards, through a series of thin-sliced curriculum tasks.
\$494.85	Melissa Green East Elementary Kinder Trace and Write Number Center Funds will be used to provide an engaging activity for our guided math stations. Students will be able to trace and learn correct number formation. Students will learn to recognize and form numbers, one-to-one correspondence and fine motor development with this activity.
\$494.85	Katie Cavazos East Elementary Kinder Trace and Write Number Center Funds will be used to provide an engaging activity for our guided math stations. Students will be able to trace and learn correct number formation. Students will learn to recognize and form numbers, one-to-one correspondence and fine motor development with this activity.
\$212.98	Gina Cox West Intermediate Laminating the Future! As a therapist on both campuses, purchasing a laminator, lamination sheets, cardstock, and ring holders will allow me to make sturdy and reusable therapy materials. Using these items will help the many visual learners I work with by enhancing visual recognition, understanding and carryover of IEP/TEKS lined goals. Using this equipment can enhance the TEKS for all grade levels.

Special Grants

ME by the SEa Conference

"A grant was awarded for the registration fees for 10 Calallen ISD STEM educators to attend the ME by the SEa Conference at Texas A & M University Corpus Christi. The conference allows teachers to collaborate and learn from local educators. The available sessions empower teachers to implement new classroom strategies to enhance the learning experience for all students. A few of our outstanding Calallen teachers teamed up last year and shared some of the awesome concepts they are doing in their classrooms." By Amanda Kirchoff

2022-23 Board Members

Non-profits like the Calallen Education Foundation play a critical role in addressing social, community, and educational challenges. They rely heavily on the expertise, guidance, and support of their board members to achieve their mission and ensure effective governance. As a result, the contributions of foundation board members are invaluable to the success and sustainability of these organizations. The Calallen Education Foundation is grateful to the Board members who devoted their time and efforts to oversee the work of the Foundation within the Calallen community.

New Board Members

This past year brought two new board members to the Calallen Education Foundation Team.

Karleigh Harris

Karleigh Harris, born and raised in Austin, Texas, moved to Calallen in 2015. She graduated from The University of Mississippi with a bachelor's degree in exercise science and a minor in business. Karleigh has been married to Hunter Harris since 2015, and they have three daughters. She has two daughters in the Calallen school district and wanted to get involved; the Calallen Education Foundation was the perfect fit. Karleigh believes she can make the most significant impact by advocating for teacher's needs for classroom support, tools, and supplies.

Mrs. Harris is very active in her daughter's lives. She stays busy toting her children to sports and other activities as well as creating designs for her embroidery business. In her spare time, she likes to be outside and spend time with family and friends.

Randi Brooke

Mrs. Randi Brooke joined the Calallen Education Foundation in 2023. Being a born and raised wildcat, she finds joy in giving back to the community and future leaders. Randi has a bachelor of arts in Psychology from Texas A&M Corpus Christi and now owns and operates Brooke Paving and Construction with her husband, John Brooke. Prior to her involvement in their family business she worked in the real estate title industry and insurance sales. John and Randi have been married ten years and have one daughter, Reese. They enjoy the beach, the lake, and going to the movies together as a family. She looks forward to raising her family with wildcat traditions.

Annual Investor Program

CEF is honored to have corporate partners and annual investors and their unwavering support of the Foundation. Their commitment to advancing education has been instrumental in shaping the future of countless students. Through their generous contributions, CEF has been able to implement innovative programs, provide essential resources, and create impactful learning experiences. The dedication to fostering educational excellence is not only appreciated but also plays a crucial role in building a foundation for lifelong success. Thank you for making a lasting positive impact on the lives of those CEF serves. We were so pleased to have continued contributions from our donor partners.

**Thank you for
your support!**

Dear Calallen Education Foundation,
My name is Julissa Lopez and I want to say thank you for donating money to our school it really helped us in our classroom. With the help you gave our school we got to buy so many things like creative Flakes and so many other things too like books and stem building supplies! With these creative Flakes me and a group of student we all made a project with the creative Flakes. It was so much fun doing the project and the funniest part was building a text structure timeline with the creative Flakes. I really appreciate your donation because with it my teacher bought so many crafty and building things. Overall, I really appreciate the help.

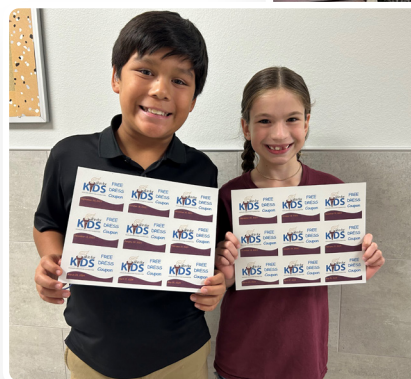

All in for Kids

The All in for Kids Campaign kicked off in September with support from students in all 6 schools within Calallen ISD. The campaign is the Foundation's effort to connect with the community allowing for donations to be made on a one-time or monthly basis. These donated funds go directly into the classrooms of our innovative and talented teachers through the CEF grants.

This past year the winning classrooms for participation include:

- East Elementary- Mrs. McClure
- Wood River Elementary- Mrs. Denman
- Magee Intermediate- Mrs. Rhodes
- West Intermediate- Mrs. Bailes

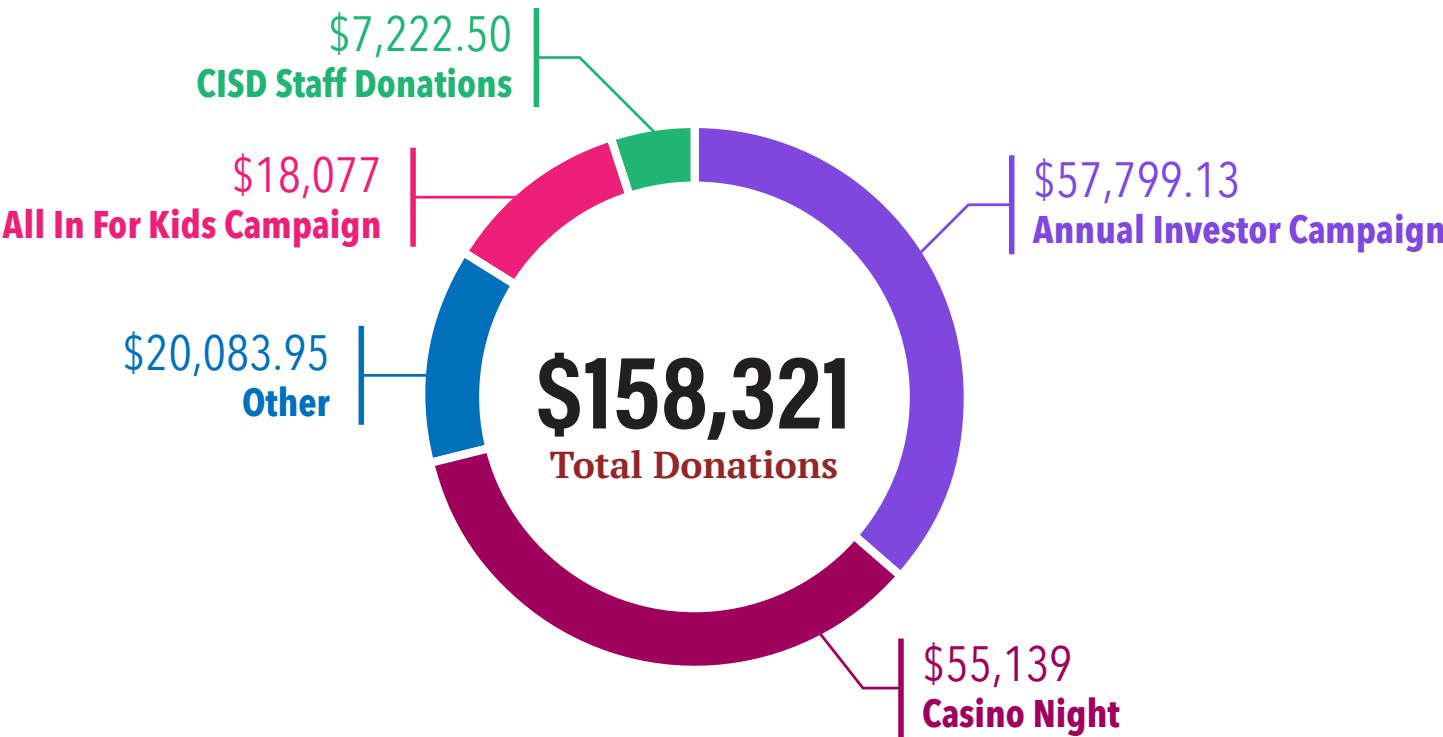

CISD Payroll Deduction

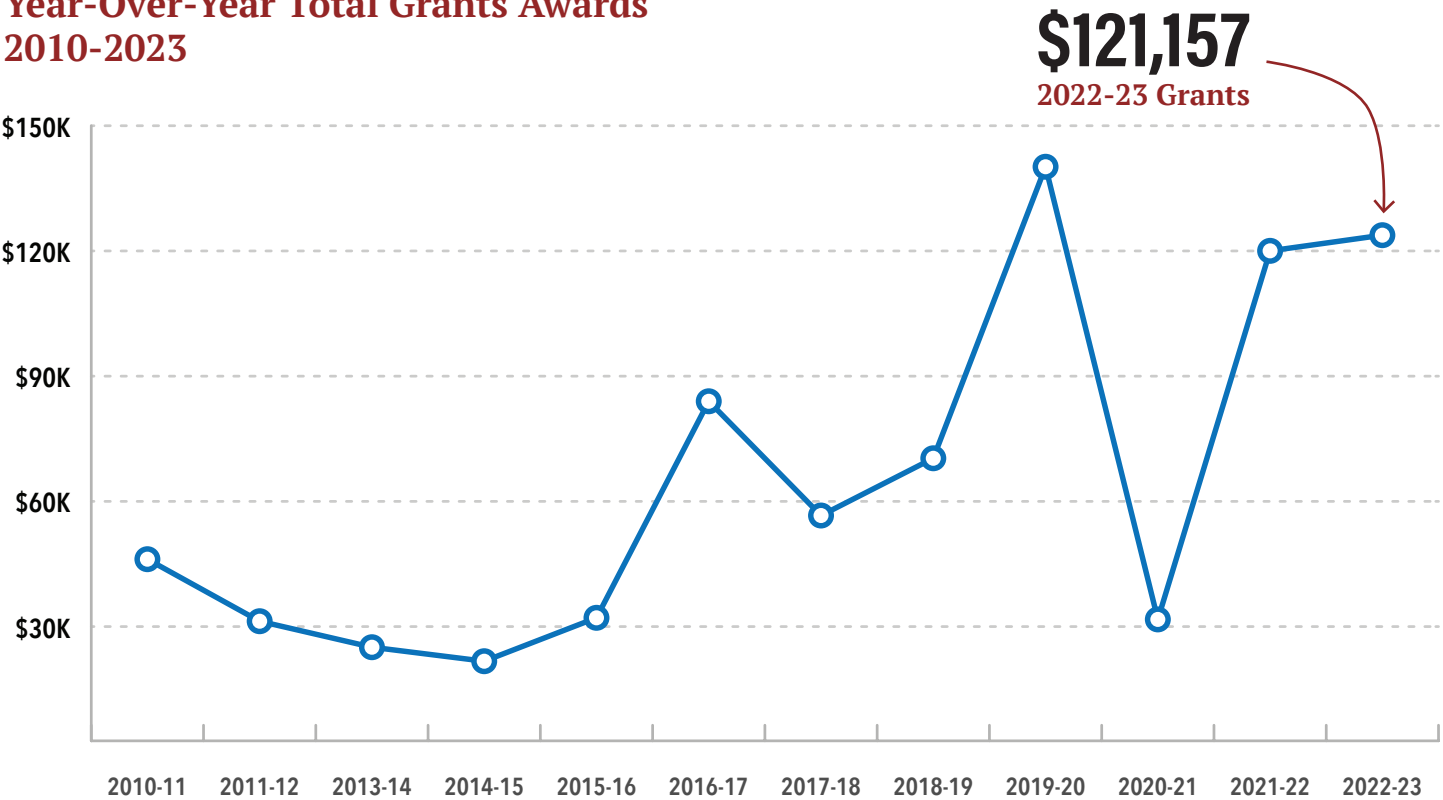

Each year, Calallen ISD partners with United Way and Calallen Education Foundation by providing the employees an opportunity to contribute to either or both of these community initiatives by implementing a payroll deduction. CEF is grateful to the staff of the Calallen ISD that contribute a portion of their payroll to the Calallen Education Foundation. This year the department with the highest participation rate of 79% was from the Food Service Department. The school with the largest participation in the campaign was Magee Intermediate. Overall, the employee campaign saw a 235% year-over-year increase.
