

# 2016-2017 Grant Winners

Campus	Recipient	Amount Awarded	Grant Title	Description
CHS	Dale Lamb	\$1,119.50	Oh, What a Tangled Web We Weave	Having the ability to use wireless microphones will greatly improve the quality of Calallen TV and give the students the opportunity to use industry standard equipment.
East Elementary	Kristine Trevino	\$2,465.00	Reading Connections - 576 books for 1st grade	The goal of this grant was to have the ability to send books home with beginning readers, improving family literacy. That goal became a reality with just over 575 books put into circulation in first grade classrooms and in family homes.
CHS	Lori Villa	\$2,768.98	Building on Success: Rokenbok's Mobile Stem Lab	Lab kits allow students to complete lessons on designing, building, problem-solving, re-building, and finally assessing their overall projects. Future student success builds from learning these lessons.
East Elementary	Shelly Whitman	\$585.80	Little Passports	With Little Passports, a monthly package allowed students to learn about the world. A new country and culture is explored each month through activity pages, souvenirs, and quizzes.
CMS	Lamar Lopez	\$1,144.00	Scooter Board Fun	Scooter boards provide a fun way to increase physical, social, and cognitive development for all middle school physical education students. Even students reluctant to participate, enjoy getting involved on scooter days.
Magee Elementary	Kasie Meyer	\$1,915.50	Student Centered Math Activities to Enhance Student Learning and Understanding of Difficult Math Concepts	Learning fractions can be difficult, especially for those students that struggle in this area. The seven different items purchased allow students to work at their own pace without anyone but the teacher knowing what level each student is participating in. Students gain confidence in themselves and the skills they are learning.
CMS	Wilma Cavazos	\$859.00	MimioTeach Portable Interactive Whiteboard Solution	The Mimio Teach interactive system transforms any dry erase board into a fully interactive whiteboard when desired. This system greatly increases student motivation and engagement.
Magee Elementary	Charolette Stanford	\$492.08	Student Literature Groups / Skype with the Author	This classroom library allow students to explore unknown genres, areas of high interest, and includes print books, audio books, and eBooks as well.
CMS	Laura Lopez	\$2,819.81	iCreate, iLearn, iSucceed - 6 iPad Mini's in Science	Six iPad minis were purchased for use in the middle school science classrooms. The focus will be on apps that will allow students to create their own science videos, write science blogs, and conduct challenging science projects.
CHS	Bruce Jonason	\$2,500.00	Powder Coating	A new state of the art powder coating spray gun allows improved quality of finished projects and reduced powder usage. Surface finish is key in completion of these projects. This computer controlled spray gun will allow students' finished projects to be state of the art.
